BRAVECTO 1-MONTH Chews keeps your dog protected from flea infestations, black-legged ticks, American dog ticks, brown dog ticks and lone star ticks. You can trust that your dog will be well protected and prepared—no matter what life has in store.

- Safe and easy treatment
- Designed for dogs at least 8 weeks old weighing 4.4 pounds or more
- One month of protection against fleas and ticks
- Tasty pork flavored chew
- Available in four sizes based on your dog's weight

Revolution Plus kills adult fleas and is indicated for the treatment and prevention of flea infestations, the treatment and control of tick infestations with black-legged tick, Gulf Coast tick and American dog tick, the treatment and control of ear mite infestations, and the treatment and control of roundworm and intestinal hookworm infections for one month in cats and kittens eight weeks and older, and weighing 2.8 pounds or greater.

Simparica TRIO™ is a monthly chewable tablet that protects your dog against heartworm disease, five types of ticks, fleas, roundworms, and hookworms. It is recommended for use in dogs and puppies 8 weeks of age or older, and weighing 2.8 lbs or more.

- The first all-in-one protection against heartworm disease, fleas, ticks, roundworms, and hookworms in a single monthly chewable.
- Convenient, once-a-month dosing.
- Tasty chewable that is easy to administer.

MilbeGuard tablets are once-a-month flavored tablet to prevent heartworm disease, control adult hookworm infection, and remove and control adult roundworms and whipworms in dogs and puppies. The tablets are also used to prevent heartworm disease and remove adult hookworms and roundworms in cats and kittens.
